NORTH HARTFORD

Harry Elliott Field

Harry Elliott Field passed away, Friday morning at the home of his wife's parents Mr. and Mrs. Frank Bragg, after a long and painful illness of Bright's disease. He was born at West Paris, March 3, 1910, the eldest child of the late Edward Field and Mabel (Cash) Field. At the age of three years he suffered from the most of infantile paralysis from which he never fully recovered, although he received much benefit from treatments at local hospitals.

He received his education in the common schools and has always been very ingenious, ambitious and industrious. He has lived on a farm where he did a retail meat business. February 21, 1932 he was united in marriage to Vivian Bragg who survives him.

He was generous and kind to every one and won many friends in his short life. Although he suffered much he bore his pain with great courage and patience. He will be greatly missed not only by his bereaved relatives, but also by a host of friends and by the community in which he lived, was loved and served so well.

Special mention should be made of his stepfather, Percy Davenport, of whom he was very fond and always liked to have near him, especially in his last days of suffering. When he was five years of age his mother married Mr. Davenport, so he has been brought up and known no other father but him and both were very congenial. Besides the wife and mother and stepfather mentioned above he leaves one sister Marion Field, one brother, Clinton Field of West Paris, two half-brothers, Delmont and Lawrence Davenport, two half-sisters, Ethel and Mildred Davenport of Hartford, a green-mother, George Field of West Paris, aunts Mamie Stuart of Harrison, Kate Whitman of West Paris, Minnie Robbins of Norway, Tenn. Farrington of Augusta and uncle, John Lindley of Everett, Mass., and Fred Cash of Paris.

The funeral was held at the home of Mr. and Mrs. Frank Bragg, Sunday at 2 p. m. Rev. Lewis Tilton of East Sumner conducted the services. The flowers, silent tokens sent by the family, neighbors and friends showed the love and esteem in which he was held. The bearers were Eugene Richardson, Clinton Field, Delmont Davenport and Walter Bragg.

Those from out of town who attended the services were Mrs. Martha Cash, Marion Field, Kate Whitman of West Paris, Clinton Field of South Paris; Mr. and Mrs. Oliver Robbins and two children, Ralph and Edna of Norway; Fred Cash of Paris; Everett Howe of Bryant Pond; Pearl of West Paris; George Keene of Keene of Livermore; Carl Keene and Persis French of Turner; Mr. and Mrs. Nelson Morris of Leeds; and Eugene Richardson of Winthrop, Mass. MEMORIES OF A BOY

The day was bright and shiny, the flowers were all in bloom, for it was in the summer, Henry, in the merry month of June, two legs sat by the roadside, their faces all aglow, thinking of the water in the pond, where they went to swim. Happy days of childhood, that we all love so dear, the memory of a happy day, with us from year to year.
—JOHN P. CULLEN.

NORTH BRIDGTON

Concord, Mass., correspondence of the Boston Globe reports that Frederick M. Ellis, popularly known as "Fish" Ellis, who, a few years ago, was the star captain of the Tufts College football eleven, and Mrs. Ellis, formerly Miss Dorothea M. Loughlin of that town, are the parents of a girl, born at the Emerson Hospital in Concord, on January 26.

Ellis is now teacher-coach at Bridgton Academy. Mrs. Ellis is the daughter of Mr. and Mrs. Edward F. Loughlin of 371 Main Street, West Concord.

SOUTH WATERFORD

Bion Herbert Pike
After a short illness with pneumonia, Bion H. Pike, a lifelong resident, passed away at his home in South Waterford, Wednesday morning at 4:30, February 8. He was born in South Waterford March 18, 1859, the son of John C. and Eliza Willard Pike. After attending Bridgton Academy, he entered business in Waterford as a successful farmer and lumberman. On Sept. 22, 1889, he married Miss Edith N. Nevers of Sweden, Me., who survives him.

Mr. Pike was a Methodist and a Republican.

Besides his wife, he leaves eleven children: Clayton Pike, South Waterford; Mrs. N. N. Holden, Norway; Mrs. Chas. Kimball, North Waterford; Mrs. Jerry Reilhan, South Waterford; Mrs. John Woodis, North Waterford; John M. Pike, Oxford; Mrs. Floyd Moulton, Bridgton; Mrs. Mahlon Grover, North Waterford; Lewis Pike, South Waterford; Frank Pike, North Conway, N. H.; Mrs. Howard Stanborn, South Paris, and thirty-three grandchildren.

The funeral will be held from his late home at South Waterford, Friday, at 2 o'clock, attended by Rev. W. L. Bull. Four sons will act as the bearers. Burial at Elm Vale Cemetery.

Heard and Seen at Advertiser Office

H. Arthur Robbins will be a candidate for reelection for selectman at the annual town meeting. See ad.

A bill before the legislature, "No one if women shall pay a poll tax." Is there any sense or good reason why they should not? We'd like to know.

The Houlton Pioneer-Times has got big and mighty since the combine and out from exchange. Sorry, but will have to get on without it.

Fred G. Baker of the Norway Farmer's Exchange, wants 100 eggs and other farm products. Look up his ad in his paper. This is the latest organization in town.

Senator Waldo N. Seavey of Lovell has introduced a bill in the Legislature. It is an act relative to construction and maintenance of highways and carries the emergency clause. The bill provides a new distribution of road funds.

It will soon be time to place those Spring ads in the Intelligence column of this paper. There are a number there now. Look it over and bear in mind that it will bring you good results, it has for others and will for you. See ad blank on page six.

Of late we have not printed in the Advertiser articles signed "A Tax Payer," or signed by some such signature. We are glad to have your articles, etc. but insist that the name of the writer of same appears with the article. It is only fair to our readers, to the writer and to ourselves, that it should be that way.

One day last week Game Warden French reported finding three dead partridges. The birds flew through the porch screens to camp and starved to death in the enclosure. Each season he finds more or less killed that way. He is of the opinion screens should be taken off porches when the camps are closed for the winter.

Mother Thayer—Mrs. N. N. Thayer of Boston, writes:

"If I can put the Coburn car out of commission this Spring, as I did last year, I hope you will help me out as splendidly as you did then. I have been in as good a car since. Keep the payments up on it till I get one more ride in it."

William Laughlin, Andover, Gd., who is stopping at the Taville in Lewiston this winter, recently sent in a photograph of the South Arm Hotel of fifty years ago. It was of the days when Mother Sessions and "Pen" entertained.

Cats, kittens, mice, fish and good cheer plenty. The good old days on the lake and coffee, and other good things, was always waiting.

W. R. French, game warden, recently discovered a "marker." It was a wooden cross, bearing an inscription: "The Home and Grave of a Good Toad." It was erected near the summer home of F. G. Sanford, a naturalist, on the western shore of Bear Pond, in Waterford, locally known as "Sandy's Place." The owner comes from New Jersey and is a teacher of nature to a select party of boys, in vacation time.

The world is said to be excited over a new science described with the new word, "Technocracy." Our technocrat knits while arguing, so certain is he that all men must return to knitting their own socks, raising their own food, carrying their own water from the spring, etc. The excitement is confined to the literary world. I have not heard the word mentioned among the common people with whom I associate.

—E. W. Howe.

Don C. Seitz, New York, writes:

"Thanks for the Conway paper. It interested me very much. I note in particular: Harvey D. Gibson has attended to the raising of the fifteen million dollar relief fund in New York. Up in North Conway, New Hampshire, where the thermometer is mostly below zero, James L. Gibson, his father, is selling coal for \$16 a ton to the shivering peasants. They are a good deal apart in the world. I wonder how the Reporter lives. It is a good story in the new government; the old one is going out in confusion, as might well be expected. Has been a bit cool; got down to 13 above yesterday. A reception of the Pen and Brush Club Sunday evening to celebrate Leo M. Tarbell's twentieth year as president thereof, I met that grand-niece of Benson Hawkins, who used to visit Norway when she was a snappy little girl and played with my sister. She was there a few hours last summer, but could find no one she knew, Izah Sanborn having gone on a picnic, which she thought was a pretty gay performance; and Agnes Beal in Portland."

Crackednocracy, Currency and their Workings

By R. L. Cummings of West Paris

With a little examination, that new thing calling itself Technocracy seems to be but another example of men of unbalanced mind, talking facts and ideas that are apparent to all people capable of thinking to a purpose, and so exaggerating and distorting them that the truths they contain may be discredited. Writers all sorts have so shot to pieces Howard Scott's hot air balloon that it needs no word from me to flatten it out. But to those critics I would say a few words. Mr. Scott has exaggerated the power of production of modern machinery and the power of the irrational idea that "Price," "Money" and our present methods of exchange must be abolished and production and distribution accomplished by some unknown process as unnatural and irrational as it would be for man to run up a hill.

It could well be said that if Mr. Scott should publish his own views and call it "Crackednocracy" it would be more appropriate. But to the critics I would say: you only a "Tortoise" for burning and no hammer for building. If they have no hammer for building they are even of less use than Mr. Scott for he has turned the public attention to a very important subject; that is, modern machinery, production and consumption.

Here we are in a country where the greatest natural resources of any spot on earth, with the best form of government ever set in operation, with modern machinery that has multiplied the productive power of man more than ten fold. We have the machinery, the ability, the man-power and the desire and ability to possess all these wonderful things that man and the earth are capable of producing for supplying all reasonable wants in comfort, necessities and luxuries, and here we are wasting twelve million people out of employment, with thirty million people in danger of losing food and shelter, with thousands of men and women past the meridian of life huddling themselves together in an attempt to pay taxes and supply food and shelter for those that cannot provide for themselves. Why use your torch to burn the false structure of Mr. Scott, instead of using a hammer to build a structure that will remedy this situation that is as destructive as an invading army. Do you say we have no faculty in that kind? Then I say "Take our thanks and thank you very much." Our people are we have chosen men to represent us in making our laws and enforcing them that are more dumb than the general public, or are influenced by forces prejudicial to the public welfare.

We lack nothing in the means of producing all desirable things, and our knowledge of how to harness the force of nature for ever greater conveniences and luxuries increases constantly.

What we lack is the means of exchanging our products for what we need of the products of others. There are 30 states, private individuals are credit what some call wooden money or credit slips so that any laborer who can work can get these wooden dollars and exchange them at their store for the goods that they want, and the store can change them to the farmer for his produce. So it goes through ten or twenty hands and comes back to its starting point. It has simply acted as a medium of exchange. Each time a man has exchanged for the goods that he needed and it posed of the goods he produced but did not need for his own use. There seems to be a lot of our "Statesmen" who do not know, that, that is all money ever did for them.

I will give one illustration of present tendencies. This is not from Mr. Scott but from the official Federal reports. In 1929 industries upon which 40 per cent of our wages depend for a living employed 900,000 men and women, more than in 1919 and produced practically 50 per cent more goods. Such tendencies as this, with the skimming process that has been perpetrated upon farmer and wage worker, have produced their unavoidable result, and those who bagged the goods don't want any change in the rules that will interfere with the further concentration of wealth in their hands. If we talk about raising the income tax to war time rates they holler that we are "Soaking" the rich and if we don't stop, the poor rich people will disappear. What a terrible thing it would be if they were taxed all income in excess of \$100,000 a year. There were left in their hands all untouched. What oceans of sympathy would be extended if they were unable to add more than \$50,000 a year to their mountainous wealth.

Our great men have seen much of Washington that shed those "Crocodile" tears but have no time to think or act for the millions that are fighting against cold and hunger. There is as much currency in the country as in 1929 but it is not in the hands of those that need it to spend it for the common necessities of life.

Today \$1.00 in gold will purchase about three times the products that it would in 1929 and these farm products are the vital necessities upon which man must exist, are produced and sold by the farmer for less than one half their cost of production. This is a law, working all unobserved by our "statesmen" that dollar where it ought to have three, being able to get enough of the farmer's goods with his one dollar to keep him from starvation, and the farmer takes half the cost of production. Neither the farmer or the wage earner can much longer beat off the ruin that faces all of us.

We have in the federal treasury nearly \$5,000,000,000 in gold valued at \$20. At once, that price was arbitrarily fixed by the Congress and the gold will be made to revalue this gold at \$41.34 an ounce and issue the additional currency where it will stop this destruction that confronts us while it can be done without open revolt.

Of course our great International bankers, led on by the house of Morgan would shout in holy horror at any measure that would reduce their strangle hold on the finances of this country. What have they been doing to the American people?

They have been selling for the sake of the profit there was in the transaction to themselves over \$15,000,000,000 of foreign bonds that they took these bonds and sold them out to the public. "Thus the Morgan Company listed gross profits of \$10,883,626" and my recollection is that Mr. W. B. Yanking house on the investigation showed a profit of over \$3,000,000 and when asked how it was found they only did not hold one dollar of them. They were not justified in being suspicious of anything these people do for us.

Nevertheless, Ogden Mills, of J. P. Morgan & Co., one of the leading representatives of the International Bankers was appointed Secretary of the Treasury to succeed the valiant Andrew Mellon. Mr. Mills' treasury department, according to report just returned to his father's estate \$6,000,000 refund on income taxes.

Some of our daily papers in this state give space to the writings of Mark Sullivan, who in a very able and adroit manner constantly argues for the things that these great financial interests want to put over on the public, and give no space for articles that would show the folly of his argument.

SOUTH WATERFORD

Mrs. Alfretta Abbott

Mrs. Alfretta Lebroke Abbott passed away at her home in South Waterford on Monday morning, January 16, at 6:30. Although in failing health for several weeks, she was able to be about the house until her fall a week before her death. She was given the tenderest care provided by her daughter-in-law, Mrs. William W. Abbott during her last illness.

Mrs. Abbott was the daughter of Daniel and Nancy Lebroke. She was born in North Waterford on August 5, 1852. On March 26, 1871 she and Sewell H. Abbott were united in marriage by Rev. John Douglas, then the pastor of the Waterford Congregational Church. Their early married life was spent in Albany where their daughter and son were born. After leaving Albany they lived in Fryeburg and North Waterford for short periods of time. Then they moved to the farm on Plummer Hill, above Waterford Village where a good many years of her life were spent. Mr. Abbott died several years ago, and she always made her home with the son and wife, Mr. and Mrs. Willard W. Abbott.

About sixteen years ago the Abbotts moved to South Waterford. Soon after coming here, Mrs. Abbott had a fall, receiving a bad fracture of her hip. This infirmity kept her closely at home and even in her business days at the farm she found time to go about the country-side helping in sickness, sorrow and death. Many are the neighbors and friends who have felt her gentle touch and heard kind encouraging words in hours of pain and grief. Her greatest happiness came when she was helping to carry another's burden and sharing her many gifts with those less fortunate.

She was a great lover of children, flowers, birds and books. Even during these "sick-in" years she has carried on her Master's service to the four-score years. It has been an inspiration to all who have known her to just see her conquer the pain and the great grief that entered her life within the last few months with a courageous word and cheery smile. She was eagerly waiting for the gates of the Great Beyond to swing open and admit her where she would again be with her dear ones gone before. Her going has been a great loss to the Abbott family and to the number within fourteen months. May the Heavenly Father be very close to Mrs. Willard W. Abbott in her many sad and lonely hours, also with the grand-daughter, Dorothy.

She leaves to mourn her passing, one brother, Samuel Lebroke of Bissetown, the last member of a large family, a grand-daughter, Dorothy A. Holden, her daughter-in-law, Mrs. Willard W. Abbott, several nieces and nephews and a large circle of neighbors and friends.

The funeral was held on Wednesday afternoon, January 18th, at 2 o'clock in the Abbott home. Rev. W. I. Bull, attending. The bears were Henry S. Haynes, Will J. Greene, L. R. Rounds and W. W. Fillebrown. Many and beautiful were the floral pieces, silently speaking of the love and esteem felt for this dear, old lady. Many of the cut flowers were sent to the sick and the aged who would be her wish. She was laid to rest in the family lot in Elm Vale cemetery.

THIS WOMAN
Lost 35 LBS.
OF FAT

Miss M. Kather of Brooklyn, N. Y., writes: "I have used Dr. Williams' Pink Pills for Pale People for the past 4 months and have not only lost 35 pounds but feel so much better in every way. Even for people who don't care to reduce, Kruschen is wonderful to keep the system healthy. I being a nurse should know for I've tried so many things but only Kruschen answered all my purposes." (May 12, 1932).

To lose fat SAFELY and HARM-LESSLY, take a half teaspoonful of Kruschen in a glass of hot water before breakfast—don't take a morning—a bottle that lasts 4 weeks costs but a trifle—but don't take chances—be sure it's Kruschen—your health comes first—get it at Ashton's Drug Store or any drug store in America. If not joyfully satisfied after the first bottle—money back.
